How will you *make history* at **IUPUC?**

CHALLENGE YOURSELF

Earning an IU or Purdue degree from IUPUC won't be easy, but you'll be rewarded with the prestige that degrees from these two universities have in the job market.

Our rigorous academics will challenge and prepare you for your future, but you'll be supported every step of the way by a campus community that cares about the quality of your academic and college experience.

At IUPUC, that experience involves one-on-one time with your professors and opportunities for academic

research, leadership positions, and study abroad trips.

Through these challenges, you will discover who you are, who you will be, and where you will go. No matter what discoveries you make, you can rest assured IUPUC will always be a place where you feel at home.

WE ARE COMMITTED TO YOUR SUCCESS

From the moment you step onto the campus for the first time until you walk across the stage with your diploma, we will be there to help you succeed.

Take advantage of:

- Personalized help understanding financial aid opportunities
- One-on-one academic advising
- Small class sizes with direct access to professors
- Faculty and peer mentors
- Internships and study abroad opportunities
- Career exploration, resume writing, and interview preparation
- Free tutoring services through our Academic Resource Center (ARC)
- Adaptive Educational Services (AES) for students with disabilities

Your first year at IUPUC is an exciting time. You meet new people, live and learn in a new community, and discover more about who you are. We offer a variety of resources and services to help you thrive in your first year at IUPUC.

- Summer Success Program
- Early Start Program
- New Student Orientation
- Welcome Week
- First Year Seminar

TOP 10

REASONS TO CHOOSE IUPUC

1. Graduate with an IU or Purdue University degree
2. Small classes with an average of 15 students per class
3. Students receive one-on-one attention from faculty and staff both in and out of the classroom
4. Experiential learning includes internships and hands-on experience with community business partners, school systems, and regional healthcare organizations
5. Conduct research with faculty members who are recognized as experts in their fields
6. Seven of the ten hottest jobs in Indiana start with degrees available at IUPUC
7. 80 percent of IUPUC graduates get jobs in their fields within six months
8. 92 percent of alumni are satisfied with their IUPUC education
9. Safe, commuter-friendly campus provides flexibility and promotes positive educational outcomes
10. Conveniently located in Columbus, IN (In 2018, Forbes named Columbus, a top 10 coolest city to visit)

ONE-ON-ONE ADVISING

Your academic advisor will work with you from day one at IUPUC to help you navigate your coursework, financial aid, scholarship opportunities and other available programs. This personalized attention is designed to get you through graduation on time as economically as possible.

ENGAGE IN *conversation*

Dr. Kevin Jones, associate professor of management, is an active researcher on romantic relationships in the workplace. One of his favorite classes to teach is the Business and Society class where the focus is Business Ethics. It is a rich dialogue, debate and conversation class where all students are encouraged to express their point of view on a variety of ethical concerns. Dr. Jones hopes his voice stays with them always asking the question “Is this business decision ethical?”

SMALL CAMPUS. BIG OPPORTUNITY.

Most of your classes will have fewer than 20 students, which makes it easy to get to know your professor and classmates—and make connections that last a lifetime.

Even better, the entire city of Columbus will become your campus. Its citizens will go out of their way to support you, and its biggest companies will want to hire you.

A DEGREE THAT PAYS OFF

More than **80 percent** of IUPUC students find a job related to their major after graduation and **92 percent** of alumni are satisfied with their IUPUC education.

That's not surprising when you realize that as an IUPUC graduate, your network includes more than 600,000 IU alumni worldwide. So whether you're looking for a job across the street or around the globe, there's likely to be someone who can help.

SAVE WITH BANDED TUITION

As a full-time student, you'll pay a flat rate for your tuition which allows you to take between 12 to 18 credits. This feature is called banded tuition—and if you maximize the number of credits you earn each semester, you can save big!

A DEGREE THAT MEANS SOMETHING

When you graduate from IUPUC, you earn a degree backed by the history and reputation of Indiana or Purdue University.

Complete these undergraduate degrees at IUPUC

Division of Business

your future
at IUPUC

WHAT WILL *you* DO AT IUPUC?

RESEARCH

Isaac Mauricio Garcia Rojas Aguilar completed a funded study on how the atypical movements of autistic children impact the way in which they are perceived by typically developing children. Such perception is believed to affect the way in which autistic and typically developing children interact and form social relations.

You might choose IUPUC for reasons such as affordability, class size, or proximity to home, but you will discover that your opportunities here are endless.

REACH

Emily Edwards, a 2018 psychology major, coordinated the first Annual Conference for Undergraduate Research in Psychology. This conference, attended by psychology students and their faculty mentors from across the region, provided the opportunity to recognize top student researchers in psychology, network with successful professionals, exchange ideas with other students and faculty, and learn more about applying to graduate programs.

DISCOVER

David Cool, a 2015 biology major, had the opportunity to work closely with one of his professors, Dr. Luke Jacobus, whose research focuses mainly on Mayflies. After collaborating on multiple projects, Dr. Jacobus invited David to participate in research in Central America studying and collecting Mayflies in the jungles of Belize. There he discovered new species of Mayflies to the country, as well as species new to science.

PREPARED FOR LIFE

You will find everything you need to have a great college experience that will prepare you for life. Learn in state-of-the-art classroom facilities, perform cutting-edge research, and participate in academic honors and study abroad programs.

Start your research career while you're still in college

If research is your passion, you'll want to check out the Office of Student Research. Every year, it provides a number of student researchers with \$1,000 grants.

If chosen for a grant, you will:

- Present your research at the annual Office of Student Research Exhibition
- Attend professional conferences and present alongside your mentors
- Publish your work in scholarly journals

Seek academic excellence in the Honors Program

The Honors Program provides you with the opportunity for deeper, broader, and more creative learning that will challenge you to pursue a higher level of academic inquiry in your coursework.

As an honors student, you'll graduate with a scholarly experience that applies your education in real-world settings.

Make the world your campus

The campus offers study abroad programs to locations like Hong Kong, London, and Paris. You can also choose to participate in study abroad programs offered at any IU campus.

INNOVATION

Jessica Caldwell, a 2017 biology major, focused her undergraduate research on utilizing differing ratios of chitin and chitosan to attempt to lower a number of heavy metals, such as nickel and lead, in locally collected water samples. She presented this research at the Indiana Academy of Science in Indianapolis and the national meeting of the American Chemical Society in San Francisco, California. She is currently enrolled in the master's program at the Adolphe Merkle Institute, a center at the University of Fribourg in Fribourg, Switzerland, which focuses on research in soft nanomaterials.

THE HELP YOU NEED TO SUCCEED

IUPUC gives you the help you need to succeed after graduation and throughout your career.

The community invests in your success

Our Office of Career Services can help you find the right career path, perfect your resume, and polish your networking and interview skills.

You'll also have access to CareerPoint, a job and internship database just for IUPUC students, that help you get interviews with recruiters on campus.

Many Columbus-area employers hire IUPUC students for internships and full-time employment opportunities.

Some, like Cummins, offer special programs to help college students. Through its School-to-Work program, Cummins allows students to take on professional roles tailored to their academic and career goals—allowing them to combine professional development with their undergraduate studies.

ACTIVISM

Liberal arts students participate in an interview project as part of a semester inquiry into women and activism. The project pairs students with local women leaders for an interview to explore feminist perspectives on activism, bridge generations through meaningful dialogue, and cultivate an ethics of care.

LIVE AND LEARN AT IUPUC

Pride is apparent everywhere you look at IUPUC. Students here are passionate about making their community a vibrant, exciting place to live & learn.

Get involved on campus

You can choose from dozens of student organizations, whether you want to learn more about mechanical engineering, explore art, plan campus activities, or join an intramural sports team.

You won't want to miss our annual campus events like Welcome Week and Homecoming, because when it's time to celebrate the Pride, we pull out all the stops!

Explore the fascinating region around you

Columbus has been recognized as one of the nation's prettiest towns, one of its most affordable places to live, and an architectural gem.
